

Cactus Wax LLC

Finish Everything

Data sheet - Quick Draw

DESCRIPTION:

Cactus Wax - Quick Draw is made and completely sourced in the USA. It protects your wood, lubricates your tools, prevents rust, burnishes leather, and more. Toasted finish ensures quicker drying, easier application, and a healthier process. Can also be applied as maintenance oil without the need for sanding or conditioners.

FEATURES:

- All natural, food safe ingredients
- Sustainable, biodegradable, and local
- Easy application, with no proprietary applicators
- A little goes a long way (200 sqft/oz dense wood)
- Very fast drying time (usable within 1 day)
- Cures on average 20% faster than other oils
- Even distribution, no overlap lines
- Variable sheen, works from 60 - 3000 grit
- Can replace tool lubricants and preservatives
- Water, wear, chemical resistant
- Very long shelf life, even after opened
- 5 colors available
- Purest finish on the market
- Smells great

TECHNICAL SPECIFICATIONS:

- Physical state at 68 °F - 20 °C: Solid
- Physical state at 104 °F - 40 °C: Liquid
- Odor: Citrus
- Color: Light, translucent yellow
- Flash point: >212 °F - >100 °C
- Auto ignition: Mild risk
- Hang oil soaked rags to dry with plenty of space
- Explosion risk: Product does not pose a hazard
- Solubility: Insoluble in water
- Oral toxicity: May cause discomfort if swallowed
- Dermal toxicity: No toxicity
- Eye toxicity: Direct contact may cause irritation
- Lung toxicity: Some may be sensitive to odor
- If you experience discomfort, leave area until project is dry

DIRECTIONS:

- Prep surface, sand or plane wood to preferred grit (60-220 for matt, 320-1500 for satin, >2000 for semigloss)
- Select preferred applicator (paper towel/rag recommended for smooth surfaces, brush/roller if grain tearout risk)
- For stains, stir jar to prevent pigment settling
- Apply very thin coat
- **Important:** Wipe surface with clean rag until no oil remains (no need to wait)
- Dust resistant immediately, colorfast and dry within 1 day
- Recoat in 24 hours
